Apex Video To MP3 WMA WAV Converter Download [Win/Mac]

Apex Video to MP3 WMA WAV Converter is an all-in-one package that converts Apex Video files to MP3, MP2, WAV or WMA format. Apex Video to MP3 WMA WAV Converter can extract audio streams from video files and encode them to the MP3, MP2, WAV or WMA format. The interface of the program is very plain and easy to navigate through. Videos can be imported into the queue via the file browser only, because the "drag and drop" method is not supported. Batch processing is allowed. In the list you can check out the path, split span, frame size, output type and status of each video. So, after you select the output destination and format, you can proceed with the conversion process. In addition, you can configure audio settings when it comes to the sample frequency rate and bit rate. Furthermore, you can preview the video clip and trim it by marking the start and end point, enable Apex Video to MP3 WMA WAV Converter to turn off the computer when all tasks are completed, remove an item from the lists or clear up everything. The video converter requires a moderate-to-high amount of system resources, can guide you to a brief step-by-step tutorial with snapshots online and didn't freeze, crash or pop up errors during our tests. The sound quality is maintained at a very good level. However, the tool's response time is not excellent. Other than that, we strongly recommend Apex Video to MP3 WMA WAV Converter to all users. This is the world's easiest to use video to audio converter, for example, you can convert video files to MP3, WAV, AAC, AC3, AMR, MP2, M4A, RAM, OGG, WMA, etc.. It can support batch conversion, as well as convert quickly, precisely and efficient. The output videos will be extremely convenient for your portable music player, such as cell phone, iPod, Zune and MP3 player. Support The Video to Audio Converter! Visit User Reviews Attention!
