Like it? Share with your friends! Other Windows Software of Developer «Webware»: Free Slideshow Maker 1.06A slideshow maker which can be used for both personal and business usage, and offers you a wide range of professionally developed features that can enhance your project and your life. Free Slideshow Maker is the professional slideshow creator software. You can create a personal slideshow, or business slideshow. Free Slideshow Maker has powerful slideshow tools that are very simple to use and without expensive fees and advanced features. Free Slideshow Maker can be used for any type of slide show. Free Slideshow Maker has the ability to edit both the JPG and BMP file formats, while the program remains absolutely user-friendly. eMail Notifier 1.01 eMail Notifier is a free e-mail notifier utility that requires no input, unlike most other e-mail notifiers. eMail Notifier is the ideal tool for any computer with an internet connection. It enables you to know instantly what emails are waiting for you on your computer, without manually checking your mail. eMail Notifier is like a second, eye-catching mail notification bar on your desktop. It's completely self-contained, so you get the most current list of unread email without having to worry about manual checks of your mail servers. eMail Notifier is the ideal solution for someone who wants to get email notifications while doing other things. For example, you can use it to monitor your business websites while you check your financial news or use it to keep up-to-date while you surf the web or shop. eMail Notifier is useful for checking e-mail any time you want, and for keeping track of your important e-mails without the constant hassle of checking your mail. You no longer have to check your mail every 5 or 10 minutes to check if you have new mail! You can also set eMail Notifier to notify you on a regular basis in order to check multiple mails simultaneously, saving you the time you would otherwise have spent checking your e-mail. Free Clipboard 1.0 Put all the clipboard information on your desktop. Free Clipboard allows you to display and organize all your clipboard information on your desktop. It shows your recent clipboard content and all your clipboard information when you are working on a word processor, mail application, etc. Besides, you can save all your clipboard information, such as word document, images, links, faxes, and telephone numbers

Free Sticky Notes Crack

Free Sticky Notes Serial Key is a straightforward program which helps individuals create an unlimited number of sticky notes and add them to the desktop, with a large number of options to choose from, when it comes to editing them. The main window is a manager and it is comprised of a detailed list of all the notes created and several buttons that let you show, hide, delete or print them, as well as add new ones, create alarms and refresh the screen. Some of the information included in the aforementioned list pertains to title, date, priority and state. Each sticky note is highly customizable, seeing that you can configure the font style, size and color, transparency level, frame size and priority. It is possible to access paragraph settings such as line spacing, alignment and bullets, as well as change the background color or upload an image (JPG, ICO, BMP). You can write directly in the window or import text from a TXT or RTF file. Moreover, you can save the contents to TXT, RTF, JPG and BMP formats. This software utility features a text-to-speech tool which is enabled by a button present in the sticky note window. Aside from that, the app also integrates a reminder, which can be repeated every day of the week and at user-inputted times. It is possible to set up the app to pop up, flash, read or beep when the alarm starts, as well as shut down the computer, open a URL or a specified program, or play an audio file from the HDD. To conclude, Free Sticky Notes is a piece of software that proves to be useful when it comes to creating reminders on the desktop. It goes in the system tray, making it non-obtrusive and response time is good. Free Drive Drive is a piece of software that allows you to copy your favorite music, videos, photos, and other data between your computer and other devices. It is possible to use the utility to copy to USB flash drives, Hard Drives, Memory Card Readers, Portable Players, DVD Discs, or any other medium. The Free Drive app is a graphical interface and it does not require a good amount of effort to use, since it is simple and intuitive. Even though the files are moved directly from one computer to another, they are still protected and safe. Free Drive also allows you to back up system information like files, preferences, music and video, registry keys, and data. The program provides two options 3a67dffeec
